

According to NHTSA, about **37** people in the United States die in drunk-driving crashes every day.

Only time will **sober** a person up. Drinking strong coffee, exercising or taking a cold shower will not help.

Every **39 minutes**, a person is injured in a drunk driving crash.

BLACKOUT WEDNESDAY

Thanksgiving eve is one of the biggest drunk driving nights of the year, be responsible DON'T DRINK AND DRIVE.

The rate of drunk driving is highest among **21 to 34 year olds**.

Every day in America, another 32 people die as a result of drunk driving crashes. That's one person every **45 minutes**.

Carrying an **open container** of alcohol in your vehicle is illegal in Texas, even if you're not drunk.

DON'T GET BURNED BY THE BIRD

Deep frying your turkey this Thanksgiving? Use these tips to avoid burn injuries and reduce fire risks.

Don't let the oil overflow

The turkey will displace some of the oil. Make sure when the turkey is submerged that there is at least five inches of space from the oil and the top of the pot. Turn off the burner when putting the turkey in and taking it out to avoid drips into the flame.

Don't mix oil and water

Your turkey has to be **COMPLETELY** thawed. When water in the turkey meets oil it will cause spatters. Do not try to put out any fires with water, use a class B fire extinguisher instead

Watch the temperature

Do not let the oil get over **350 degrees**. If it gets too hot it can ignite a fire

Watch the pot

NEVER leave it unsupervised. Keep children and pets away, and establish a "circle of safety" around the pot. Make sure it is on a level surface away from buildings.

Don't touch it

The pot will be very hot. Also, keep away from the burner flame.
